Low-THC Cannabis & Medical Marijuana

Patient's Guide

HOW IT WORKS

1

A physician diagnoses a patient with a qualifying condition for low-THC cannabis or medical marijuana. If the patient is younger than 18 or terminal, a second physician must concur and this determination must be reflected in the patient's medical records.

2

The physician obtains voluntary, written, informed consent from the patient.

3

The physician enters the order into the Medical Marijuana Use Registry.

4

The patient must apply for a Medical Marijuana Use Registry Identification card.

5

The patient may fill the order at any approved Medical Marijuana Treatment Center.
